Review #92: Bring Back Summertime by Jeanne Starr Gater

Description:

Bring Back Summertime is the true story of Jeanne Starr Gater's life before, during, and after he husband Julius' near fatal car accident; and the extreme faith driven rehabilitation that followed.

Review:

This memoir is a remarkable and inspiring page-turner that will leave you believing in the unimaginable powers of love and faith. Jeanne Starr Gater's detailed writing style pulled me in from the first few pages, and her amazing story kept my attention throughout. What she and her family went through was devastating, and the amount of emotion presented in this book had me feeling like I was going through it with them - the good and the bad. The people and places were very real to me and I enjoyed looking at the mini-album in the back of the book to see what everyone really looked like versus my mental representations. I am glad that I read this book, and I felt that it was a very worthwhile read. Jeanne Starr Gater is an incredible woman and writer. I recommend this book to those who want to have their faith restored and inspired.

Rating: On the Run (4/5)***

**I received this book from the author in exchange for an honest and unbiased review.
